

# XY-4 core drilling rig operation process

XY-8 drilling rig is a full-featured, stable performance middle-deep hole core drilling machine. It is suitable for drilling of large and small diameter alloy and ...

During drilling work, if you need to rewind the wire, first stop the reversing switch to the middle position, wait until the speed of the drilling rig stops, and then rewind the wire.8. In the process ...

What Is a Core Drilling Rig? A core drilling rig is a specialised equipment that uses a cylindrical drill bit to extract columnar samples from materials such as concrete, rock, asphalt ...

Core drill rig, exploration core drilling equipment, mining core drilling, small water well drilling rig with competitive price in YG. Click!

This product is a medium-depth core drilling rig. The machine is a spindle core drilling machine, mainly used for diamond drilling, capable of meeting the needs of various drilling processes. It ...

The XY-4 core drilling rig is equipped with advanced features and capabilities to ensure precise, accurate drilling results. It is powered by a high-performance engine that delivers the power ...

XY-4 CORE DRILLING RIG I. General XY-4 Core Drill is a new type high speed diamond core drill, designed according to the development of geological work in China and developed to ...

In short, the XY-4 core drilling rig is the ultimate solution for geological exploration and coring. The rig's versatility, precision and efficiency make it the perfect ...

It absorbs the advantages of XY-4, XY-44A and XY-5A drilling rigs, such as simple and compact structure, reasonable layout, easy disassembly, reasonable speed range, equipped with water ...

XY-4 is a shallow/middle-hole core drill rig. It can be used to not only the drilling of carbide bit for engineering geological exploration and hydrological shallow ...

XY-3 Portable core drilling rig XY-3 borehole drilling rig is mainly used for geological exploration, hydropower project, road and railway construction, building project and big diameter water well ...

The document describes the XY-1A core drilling rig. It is a lightweight, compact rig that can drill holes up to 100 or 180 meters deep with diameters of 75 or 46 ...

XY-4 wireline drilling rig can be also applied to engineering geological subterranean water explorations as

## XY-4 core drilling rig operation process

well as explorations of shallow oil and natural gas. What's more, it can be used ...

XY-8 drilling rig is a full-featured, stable performance middle-deep hole core drilling machine. It is suitable for drilling of large and small diameter alloy and diamond.

High quality Spindle Type Core Drilling Rig, Core Drilling Equipment XY-4 from China., China's leading product market Hydraulic drill rig product, with strict ...

XY-6B/6N type core drill rig is a spindle type drilling machine with mechanical and hydraulic transmission. It is a type of deep drilling equipment used in the fields of geological prospecting, ...

XY-4 Portable core drilling rig XY-4 core drill rig is mainly adapted to suit mineral with diamond bit or tungsten-carbide tipped bit. It can also be used for engineering geology and groundwater ...

XY-4 Core Drilling Rig is a drilling rig featuring mechanical driving and hydraulic feed. 1000meter deep holes can be drilled by using 742 mm drilling rod . It is mainly used in exploring and ...

The XY-4T drilling rig is a medium-shallow hole core drilling rig. It is a tower crane integrated drilling rig developed on the basis of our XY-4 drilling rig. Its drilling tower is designed based ...

Introducing the XY-4 core drill rig, a cutting-edge solution for geological exploration and coring projects. This innovative drill rig is designed to deliver reliable, efficient performance in a ...

Spindle core drill rig makes use of rotary action of drill bit to cut and crush rocks. With features of compact structure, small size and easy dismantlement, core ...

XY-44 drilling rig is mainly adapted to diamond bit drilling and carbide bit drilling of solid bed. It can also be used for engineering geology and groundwater exploration; shallow layer oil and ...

XY-4 Core Drill can be driven by Deutz F4L 912 diesel engine or 30KW electric motor. The drill has 8 rotary speed stage, the Max, speed 1588 rpm, the min speed 101 rpm, so it is suitable ...

XY-1 core drill rig is suited for the applications of general exploration and investigation, geophysical prospecting, road and construction survey, blast holes and other drilling operations.

xy-1 is a hydraulic diesel well drilling machine, suitable for geological drilling, mine prospecting, geological coring, and water well drilling projects. It is compact and lightweight.

The XY-4T drilling rig is a medium-shallow hole core drilling rig. It is a tower crane integrated drilling rig developed on the basis of our XY-4 drilling rig. Its drilling ...

## XY-4 core drilling rig operation process

XY-4 Core Drilling Rig is a drilling rig featuring mechanical driving and hydraulic feed.1000meter deep holes can be drilled by using?42 mm drilling rod . It is mainly used in exploring and ...
