

Yanji screw air compressor repair shop

Can You rebuild an air compressor?

We can rebuild most air compressor brands we sell and service. Rebuilds include new gaskets, bearings, O-rings, repair of rotors, and seals, metalizing the shafts, inlet valve rebuild, and end plate repair if needed. We can also service the drive motor, "clean & bake" the windings, and install new seals and bearings on direct-drive units.

How long does air compressor repair take?

Average air compressor repair of service is completed in 10 business days or less. Services and repairs are guaranteed for 30 days. "Service is best of any small engine repair shop I have used. I will go no place else."
