

Yt18 air leg rock drill usage process

What is air leg Rock Drill?

Air leg rock drill is a tool work in quarrying, construction and mining, which uses compressed air to drive rock drilling tools for rock drilling operations. This type of rock drill machine usually consists of a compressed air source, the rock drill body and the drilling bit.

What is a YT Rock Drill?

The YT rock drill has a wide range of applications and is suitable for drilling horizontal and inclined blastholes on medium-hard or hard ($f=8\sim 18\sim$) rocks, and can also drill vertically upward staggered holes on the mine roof. The diameter of the blasthole is generally 34-42 mm, and the effective and economical drilling depth can reach 5 meters.

What is O18 hand-held rock drill used for?

O18 Hand-Held Rock Drill is suitable for dry drilling. It is predominantly used in drilling split holes and breaking holes on quarry and underground mine site applications. It can also be used for rilling and sloping blast hole works. Features Include Light weight, low air consumption, efficient to run and easy to operate. The BD-

What is Y28 hand-held rock drill used for?

Y28 Hand-Held Rock Drill is suitable for dry drilling. It is predominantly used in drilling split holes and breaking holes on quarry and underground mine site applications. It can also be used for rilling and sloping blast hole works. Features Include Light weight, low

How many blast holes are there in a bd-yt24 air leg Rock Drill?

hard rock as well as vertical bolt holes in the roof. Diameter of blast holes is 35DrillsBD-YT24 Air-Leg Rock DrillProduct InformationThe BD-YT24 Air Leg Rock Drill is a product that adopts all the latest design te

What is bd-yt28 air leg Rock Drill?

The BD-YT28 Air Leg rock drill has lower noise, higher faster speeds rate than other comparable drills. Features Include Centralised operating system, flexible startup, combination of pneumatics and water, use of use and straightforward maintenance procedures. Low noise, low vibration, energy efficient, high durability and reliability. A cl

YT29A air-legged rock drills are heavy-duty push-leg (air-legged) rock drills with low energy consumption, which are more suitable for drilling horizontal or ...

YT28 Air-leg Rock Drill is a product that we developed, having advantages of all kinds of air-leg rock drills, Compared with other rock drills, YT28 Air-leg Rock Drill adopts the latest designing ...

YT24 air leg rock drill is a high efficiency rock drilling machine. It widely used in rock drilling blasting holes,

Yt18 air leg rock drill usage process

it's very important to coal mine, railway traffic, ...

Selling Air leg YT29A well drilling rig hand hold coal core drilling rig They are applied for wet drilling and blasting in tunnel, road construction and mining adopts the latest designing ...

YT28 Air-leg Rock Drill King Kong Drills company produce different size and type coal cutting picks, rock drilling tools, cutting picks, road milling teeth etc. ...

Product Description: Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes. ...

Air leg rock drill is a tool work in quarrying, construction and mining, which uses compressed air to drive rock drilling tools for rock drilling operations.

Scope of application Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in ...

YT28 air leg rock drill. It is a new type of high efficiency rock drilling machinery. It is widely used in mining roadway excavation and drilling blasting holes in various rock drilling operations, is ...

Pneumatic Rock Drill YT-28 Kelebihan Pneumatic Rock Drill YT-28 Air Leg Rock Drill atau Bor Batu tambang sangat cocok di operasikan pada pengeboran ...

An air leg rock drill is a type of drilling machine that is commonly used for drilling holes in rocks, concrete, and other hard materials. To use an air leg rock drill, the following steps can be ...

The rock drill machine is a kind of high efficiency Hand hole or air leg support rock drill machinery. It is mainly used for blasting holes and other drilling works in a ...

The YT27 Air-Leg Rock Drill is a high-efficiency pneumatic drilling machine designed for demanding rock excavation. Primarily used in mining tunnel development, it is also widely ...

Easy-handling air leg YT24 rock drill Air leg rock drill machine for road construction They are applied for wet drilling and blasting in tunnel, road construction and mining adopts the latest ...

We manufacture and supply YT 28 Air leg Rock Drill at a factory competitive price with features: 1.CE certificate,, 2.Reliable quality,, 3.Long life time, 4 petitive price, easy to maintence

Yt18 air leg rock drill usage process

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

Product Description Selling Air leg YT29A well drilling rig hand hold coal core drilling rig They are applied for wet drilling and blasting in tunnel, road construction and mining adopts the latest ...

Product Description Our YT Air-leg rock drill machines has so many different models, including YT23, YT23D, YT24, YT27, YT28, YT28A and YT29A. They are applied for wet drilling and ...

How to Use Y18, Y24, Y26, Yt24, Yt28 hand Held Air-Leg Rock Drill for Mine, YT28 manufacturers & suppliers on Video Channel of Made-in-China .

It is an efficient, energy saving rock drill. The BD-YT24 Air Leg rock drill has lower noise, higher durability, faster speeds and a lower failure rate than other comparable drills.

The YT24 air-leg rock drill is widely used in mine tunnel excavation and various engineering projects including metallurgy, coal mining, railway construction, transportation, water ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal tool for rock drill operations in ...

Small air consumption Smaller air consumption when compared with other pneumatic rock drills on the market, same air compressor can connect more rock drills and greatly improve working ...

Yo18 Air Leg concrete rock drill Y018 hand-held, air-leg dual-purpose rock drill is suitable for drilling blast holes on soft, medium and hard rocks, and can be ...

YT29A air-legged rock drills are heavy-duty push-leg (air-legged) rock drills with low energy consumption, which are more suitable for drilling horizontal or inclined holes in medium-hard ...

The rock drill machine is a kind of high efficiency Hand hole or air leg support rock drill machinery. It is mainly used for blasting holes and other drilling works in a quarries, railway construction, ...

Yt24 Yt28 Yt29 Jack Hammer Air Leg Rock Drill Yt27, Find Complete Details about Yt24 Yt28 Yt29 Jack Hammer Air Leg Rock Drill Yt27, Rock Drill Yt, Drill Yt27, Yt27 Air Leg Rock Drill Price ...
