

Yueyang air leg type pneumatic rock drill

This type rock drills use compressed air as power, mainly used in construction sites, various types of mines, tunnel, railways, water conservancy construction and national defense construction ...

Our rock drills are fully equipped to ensure long service life, high energy efficiency, low air consumption, as well as easy installation and operation. The rock drill machines are well ...

Air-leg rock drilling is a high efficiency rock drilling machine. It's widely used in mining and roadway drive of drilling operation. Also it's a important tool for ...

ProDrill produces high quality Air leg rock drills, pusher leg rock drills, rock drilling tools, underground mining, tunneling, drifting, pneumatic air leg rock drills for 15 ...

YT24 air-leg rock drill is a high-efficiency rock drill machinery. It is widely applied to rock drive and drilling of blast hole in various rock drill operations and is an important tool in such ...

Air leg rock drill is rock drilling equipment with high impact energy, and lower air consumption is widely fitting for underground mine, railway traffic, water ...

Y28 hand held rock driller include all design, tunnelling and mining programs in distinct rock formations. They are sturdy designed, with high influence vitality and minimal air ...

We invented the "Swedish Method" mid last century, and still this method is used in a lot of applications around the globe. But we have never stopped working to improve it further.

Whether conducting dry or wet drilling using a drill carriage or drilling rig, various available options of this Pneumatic Rock Drill With Air Leg ensures optimal performance and reliability. ...

YT27 air leg pneumatic rock drill used in drilling operation of mine tunneling, and it's widely used drilling tools in railways, water conservancy construction and ...

A tool for every rock drilling job Make every liter of air count. Every pneumatic underground rock drill combines light weight, high torque and high impact ...

Model Y6 hand-held rock drill is a light-duty tools designed for quarrying and drilling operation. You may expect satisfaction results with adoption of this drill either in making 20mm holes in ...

We are a professional rock drill manufacturer. Our Air-leg Rock Drill has various specifications, mainly

Yueyang air leg type pneumatic rock drill

YT29A, YT29, YT28, TY28A, YT27, YT26. The weight of the drill rig ranges from 20KG ...

It's one of the major quarry rock drills. YT23, YT24, YT27, YT28, YT29 Air Leg Hand-Held Pneumatic Rock Drill Machine for Quarry and Mining YT24, YT28 ...

Product Description: Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, ...

Operation Steps Place the air leg in a stable position and adjust the angle of the rock drill. Turn on the air and water supply, start the rock drill, and begin drilling. Adjust the height and angle of ...

Rock drilling tools manufacturer ProDrill: Model No. YT27 Pusher Leg Rock Drills applied for underground mining, drifting. It's one of the major quarry rock drills. ...

The YT28 air leg rock drill is most suitable for dry drilling downward and inclined blast holes in medium hard and hard rock with a hardness of F8-18. An ideal ...

Established in 1992, KINGKONG. is a manufacturer specialized in the research, development and production of DTH drilling rig, Water well drilling rig, DTH hammer, DTH bits, Drilling Pipe, ...

The air-leg rock drill is an efficient drilling device powered by compressed air and is widely used in mining, tunneling, construction, water conservancy projects and other fields.

The Hongwuhuan YT24 type pneumatic leg rock drill is one of the earlier standardized products in China. Compared with similar rock drills, it features low weight, low noise, high efficiency, and ...

YT28 Air-leg Rock Drill most fit for drilling horizontal and inclined blast holes in medium-hard and hard rock with a hardness of $f=8\sim 18$. It may also be used with for making roof-bolting holes.

The YT27 Air Leg Pneumatic Rock Drill is designed for efficient drilling in various rock formations. With its compact and handheld design, this rock drill is perfect for mining, construction, and ...

Pneumatic Rock Drill Air Leg These Pneumatic Rock Drill Air Leg has extra extension for higher reach The FT160B features a powerful leg for small drifting purposes...

ZY24 Rock Drills ZY24 rock drills are suitable for drilling primarily vertical tilting blast holes below the drilling level of medium-hard rock; they can drill blast holes in different directions at ...

Air leg rock drill is rock drilling equipment with high high impact energy, and lower air consumption, it is widely fitting for coal mine, railway traffic, water ...

Yueyang air leg type pneumatic rock drill

China AIR LEG ROCK DRILL catalog of Yt24, Yt27, Yt28, Yt29A Pneumatic Air Leg Hand Held Rock Drill, Portable High Speed Yt28 Air Leg Rock Drill provided by China manufacturer - ...

Forging technology makes drill more durable With forging technology, lower rotational speed at the same drilling depth, making drill more durable. Small air consumption Smaller air ...

Jack Hammer Y series of pneumatic rock driller are mainly used in mine, railway, water irrigation works and quarrying works to drill holes. Rock Drill Jack ...

The air-leg rock drill is an efficient drilling device powered by compressed air and is widely used in mining, tunneling, construction, water conservancy projects ...

We invented the "Swedish Method" mid last century, and still this method is used in a lot of applications around the globe. But we have never stopped working ...
